

TOTAL HOOK

SELF-ENGAGING FASTENERS

By weaving alternating rows of hook and loop on the same surface, the traditional two-component closure system transforms into UNION TAPE. An infinitely adjustable, easy-to-sew fastening system.

BENEFITS:

- Inventory reduction - inventory only one component as opposed to two!.
- Reduced lint contamination.
- Eliminates color variations due to different dye lots of hook and loop.

Product Description		UNION Fastener
Closure Performance	Average Shearing (g/cm ²)	400 g/cm ²
	Average Peeling (g/cm)	80 g/cm
Cycle Life		Normal
Standard Widths		25mm, 50mm
Available Colors		Black, White (standard), Navy (25mm only; non-standard)
Standard Put-Ups		25 meters/Roll

Test	Method	Cycles	Condition
Durability test	EN 1414	1,000	80% good
